PROFESSIONAL BODY FOR
**SUPPLY CHAIN
MANAGEMENT**

New horizons in public health supply chains: the emerging role of the private sector

A joint presentation by:

People that Deliver (PtD)

The International Association of Public Health Logisticians (IAPHL)

www.sapics.org

The Leading Event in Africa for Supply Chain Professionals

The 50-minute panel discussion will be moderated by:

Sharing private sector experiences, challenges, and opportunities of supporting public health supply chains in Africa.

Objective of this Session

Increase understanding of emerging role of private sector in improving public health supply chain performance

Specifically:

- Opportunities
- Challenges
- Tangible models and examples of private sector engagement

Panelists

Stewardship

- **Country perspective:** Khadija Jamaloodien, National Department of Health South Africa
- **Donor Perspective:** Alan Bornbusch, USAID

Adapting and Learning

Eugene Coetzee, Celsian Consulting

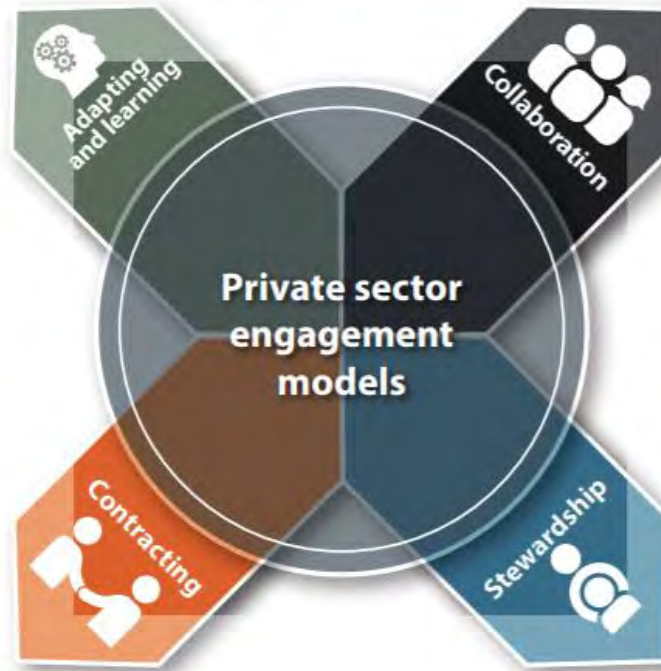

Contracting

Phil Roberts, Project Last Mile

Collaboration

Sandra Lambert, Biovac

Countries Use Four Basic Models to Engage the Private Sector

Adapt from the private sector to apply innovative solutions in the public sector

Contract with the private sector to leverage comparative advantages across the healthcare marketplace

Collaborate with the private sector to share the responsibility of protecting the public good across sectors

Provide **stewardship** to ensure equitable access to health products for all

Considerations for Private Sector Engagement

Is the enabling environment conducive?

Can the supply chain be strengthened by learning from, contracting to, or collaborating with private companies?

What are the risks and opportunities?

What is our long-term plan?

Which model is most relevant now for helping public health supply chains get to the next level of maturity?
