The Launch of the ICFF

Ingrid du Buisson (Chairperson: ICFF)
Identification of Standards
Globally benchmarked standards enable a solid foundation to design competency assessment tools and fit for purpose curricula.

Job Designation Profiling
Human Capital will continue to remain an essential resource to Supply Chain.

Competency Assessment
It is imperative to map the job designation to the key competency functional areas.

Identify Gaps in Capacity Building
Augment qualifications, curricula and training service providers to produce the best logistics professionals in the world, a product of SA Inc.
