A NEW ERA FOR THE INTERAGENCY SUPPLY GROUP AND DONOR COORDINATION

~\$50 Billion USD

spent on health products in LMICs each year

2 Billion vaccines procured & distributed annually

>\$2 Billion annual spend on PSM

USAID NextGen \$15 Billion over 10 years

INTERAGENCY SUPPLY CHAIN GROUP

The ISG is evolving to serve the broader PSM community. As the **only cross-program initiative focused on end-to-end supply chains**, the ISG provides space for **cross-agency collaboration and information sharing**, with a focus on:

- ❖ Mobilizing the community for collective action to tackle critical gaps and opportunities
- ❖ Promoting widespread adoption of global standards and best practices
- ❖ Advocating for the prioritization and improvement of PSM systems

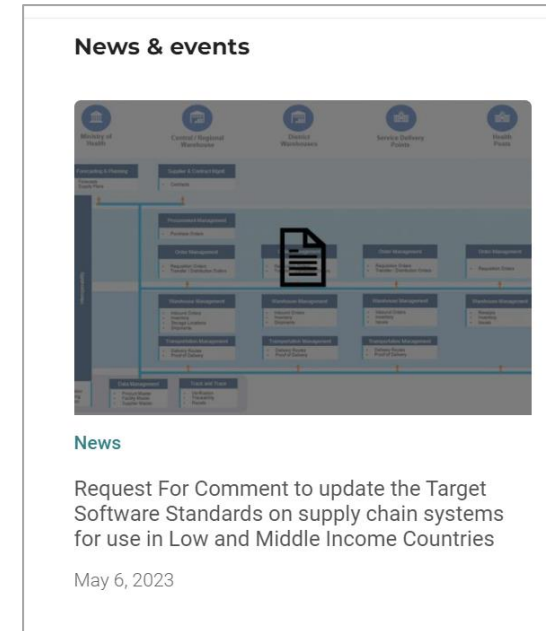

Major donors such as BMGF, USAID, GF, GAVI will continue to convene in a Funders' Forum with a focus on aligning longer term investments.

Get Involved: Target Software Standards

The Target Software Standards for electronic logistics management systems provide guidance for software vendors and country governments on optimal features/requirements to consider when soliciting or creating new systems.

WHAT YOU CAN DO!

- 1) Review the guide on isghealth.org and send feedback to coordinator@isghealth.org by June 21st
- 2) Join open call for comments discussion on June 21st from 16:00-17:00 CET

Respond to our question on the conference app to share what YOUR top PSM priorities are!
